

April 24, 2008

To Whom it May Concern:

I would like to take this opportunity to recommend Mastercraft Exteriors and Richard Spanton as a professional and reliable roofing contractor. Our project at Caravilla was under a major time constraint to finish the roofing by our grand opening the following month.

Mastercraft and Mr. Spanton completed 94,500 square feet of tear off and replacement of the shingles in about one week. Their workmanship was impeccable and attention to detail second to none.

Sincerely,

Brad Austin
